BANGOR DAILY WHIG AND COURIER.

BY WHEELER & LYNDE. TUESDAY MORNING, DECEMBER 22, 1857. VOLUME XXIV.....NUMBER 148.

DR. BARROS'

INVIGORATOR,

OR LIVER REMEDY!

HAS ALL THE GOOD QUALITIES OF a Purgative Medicine, answering the purposes of any cathartic without the bad effects experienced, from most purgatives. It works slowly and gently, but surely, restoring the Liver to carry off all the secreted matter, at the same time stimulating the Liver to a healthy performance of its functions.

The Invigorator cures Sick Headache. Take two teaspoonfuls at the first attack, and it will seldom appear. For an overloaded stomach, or costiveness, take the Invigorator after eating a hearty meal, and it will prove disagreeable or oppressive. For Biliousness, Costiveness, or Difficult Breathing, take a teaspoonful twice daily. For Loss of Appetite, Languor, Lowness, the medicine is invaluable. It will restore the appetite and make the food digest well. Nightmare, it is responsible for its coming, and the demons of night will be farther. After taking a bottle of the Invigorator, and it will relieve all symptoms of Dyspepsia. The Invigorator is a Liver Remedy of unrivalled virtue, acting directly on that organ, curing Jaundice, Bilious Attacks, Dyspepsia, Costiveness, Worms, and all Female Obstructions, for which it is the most powerful remedy.

We know there is nothing new before the Advertising public, prepared with such skill by a scientific chemist, particularly for diseases of the Liver, as Dr. Barros' Chemist, or Liver Remedy. It has attained a reputation in this place, without puffing, simply from the effects it has upon those who have used it. To convince all by trial that all that its proprietors claim it to be, if any of our readers are suffering from any such diseases as are supposed to be cured by Dr. Sanford's advertisement, we know of no medicine that we can more safely recommend as the Invigorator.

There has lately been brought to our notice a medicine that seems to possess wonderful curative and healing properties in diseases of the Liver, Stomach and Digestive organs. It came to us with so many testimonials in its favor that we have noticed its effects in some of the worst cases of costiveness, caused by deranged Liver, and in every instance the effect was to relieve and give a permanent cure. Dr. Sanford's Liver Invigorator is what we refer to. We always have been credulous about cures by patent medicines, but we are convinced that this medicine, for family use, is not overrated by the thousands of recommendations it has. Our advice is, for all troubled with indigestion, Debility or Bowel Complaint, to get a bottle and try it; our word for it, relief will be experienced.

Blessings to the invalids who use Dr. Sanford's Invigorator, for it will relieve them of their pains as soon as it is taken into the stomach. Pain and misery cannot exist where this far famed Invigorator is used, for it will drive them away, as daylight will banish darkness. To those there can be no doubt to those who try it, for it carries conviction with every dose taken. Another evidence is the thousands of certificates from those who use it, or have been cured by it. Try one bottle—if it does not benefit, then we are mistaken.

Alpine Hair Balm

—FOR—

Restoring Gray Hair to its Original Color.

WARRANTED to cure Baldness, Scurf, Dandruff, Itching, and all diseases of the skin. This Balm gives the scalp a new and healthy action; restores the coloring matter to the roots of the Hair, which passes through the Balm and gives it a natural color, without the use of any other Dye.

Hundreds of preparations have been introduced, pretending to restore the Hair and keep it from falling off, composed of Oils, Alcohol, and other deleterious materials, and all of no use. Hair Dyes have been introduced, that do not give the Hair a natural color, besides being troublesome to use. This Balm is not a Dye. Knowing that a preparation was needed to do what was required for the Hair, the proprietor was induced to experiment until he could obtain an article that would be the exact remedy, and after seven years trial has perfected this Balm. It is soothing and emollient, allays all irritation of the scalp, thereby stopping that troublesome itching. It cures Dandruff, and Scurf, and when the hair has turned gray it will bring it back to its original color, be it black, brown or Auburn. It makes the Hair soft and glossy, prevents it from falling off as will be seen upon using this Balm for only a few days—life will be given to the roots of the Hair, and growth will soon appear. Growth does not take place at the end of the Hair, as will be seen in persons who have had their hair dyed. If you examine a gray hair that has been colored for a week, you will find, towards the roots, that the hair has not gray, hence it is necessary to have the fluid at the roots of the hair healthy, that the whole hair may be a natural color. Each hair has a root in the skin, and is of itself a hollow, gray tube, through which there is a constant circulation of the pigment from the root. When this pigment or coloring matter dies out, it leaves the hair hollow, and it becomes gray. Dr. Sanford's Alpine Hair Balm will produce the pigment that has become the color of the proprietor. The discovery of the Alpine Hair Balm will do it. It will bring the hair to its natural color by thinking anew the coloring matter in the roots of the hair.

It is a mistaken notion that oil or grease will restore the hair, as nothing can be more injurious. The Alpine Hair Balm will restore the hair and save the hair of those who have lost, and will never cause any other disease.

Hopkins's STARCH POLISH WAFERS.

This article is so much admired and such a favorite in the Boston Market, that Mr. Hopkins has put up a supply for family use, in the form of Wafers. One Wafer dissolved in a teacup of water, and gives a beautiful lustre to muslins, laces or linens. It is a superior article for starching Linen Bosoms, and is a universal favorite. Ladies who have used them will use no other.

Twice-Weekly Age for 1857.

We propose to issue the Twice-Weekly Age during the ensuing Legislature, if we think we can do it without serious pecuniary loss. It is absolutely necessary for our friends throughout the State, for whose protection and benefit the publication is chiefly made, that we should be giving as good list of Advertisements as the comparatively small number of business men of the Legislature, should afford. We do not in our behalf doubt, but that we shall receive a fair share of patronage, if our friends do their duty. The character of the Twice-Weekly Age is well known, that we do not think it necessary to say more.

The terms will be $1, in advance, for the single copy. Postmasters, or others, who will send us the names of five subscribers and the money, will receive a copy in addition.

It is very desirable that the lists should be forwarded as early as the first of January.

LINCOLN'S WATER PROOF BLACKING, AND LEATHER PRESERVATIVE.

Keep your Feet dry and you will seldom need a Physician.

IS it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks; but when this water proof blacking is used. By the application of this preservative, it remains soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting, on different compositions, and found it easy to make it water proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which, perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water proof but it likewise softens the leather, and it will

For ever wear it as long as I have now used it for three years, and a large part of that time have worked in a wet Tannery, with my boots constantly in water, and have not had my feet wet during that time. I can therefore in full confidence, recommend it to the public as the best article in the market.

NEW AND IMPORTANT DISCOVERY IN THE SCIENCE OF MEDICINE.

TRIESEMAR.—None are genuine unless the engravings of the Seals of the Patent Office of England, the Seals of the Ecole de Pharmacie de Paris, and the Imperial College of Vienna, are fixed upon each wrapper, and round each case.

Sold by Dr. H. A. BARROW, Member of the Imperial College of Vienna, and Royal College of Surgeons, London, who may be personally consulted at his residence, No. 197 Prince Street, (few blocks West of Broadway) New York, from 11 o'clock in the morning till 2, and from 4 o'clock till 8 in the evening, (Sundays excepted.)

TRIESEMAR No. 1—Is the remedy of general and local debility, loss of vital power, premature decay, and all the distressing consequences arising from early abuse, and all physical impediments, vanish like magic before its influence, thus rendering it as an invaluable to those entering the marriage state.

TRIESEMAR No. 2—Entirely eradicates all traces of those disorders which copaiva and cubebs have so long been thought an antidote for, to the ruin of the health of a vast portion of the population.

TRIESEMAR No 3—Is the great European remedy for that class of disorders which, unfortunately, the English physicians treats with mercury to the inevitable destruction of the patient's constitution, and which all the Sarsaparilla in the world cannot remove.

TRIESEMAR Nos. 1, 2 and 3—are prepared in the form of a lozenge, devoid of tastes or smell, and can be carried in the vest pocket. *No. 1 in tin cases and shipped in separate boxes, on account of Valparaiso Lilliputian stores, Record, &c.* Price $2 each; or four cases in one for $5, which saves $3; and in 27 cases, whereby there is a saving of $5.

Upwards of 2000 cures have been made with the Triesemar. Expressed, the nine-dollar cases of the Triesemar, and the large sizes, will be forwarded by Dr. Barrow, carriage paid, immediately on receiving a remittance, to any part of the world, securely packed, and addressed according to the instructions of the writer, thus securing to the public genuine European preparations, and effectually protecting them from spurious and pernicious imitations. The three-dollar cases are as usual, but not free of carriage.

IMPORTANT DISCOVERY!

CONSUMPTION CURABLE!

BY THE USE OF

The most powerful and effectual remedy ever discovered for the treatment of PULMONARY CONSUMPTION! This medicine is a choice combination of VEGETABLE products, and possesses all the rare medicinal properties so long and eagerly sought for by the profession. It is the result of different study and research through a long series of years, and is now, for the first time, presented to the notice of the public!

IN EVERY CASE of suspected PULMONARY CONSUMPTION, where it has been tried it has proved, beyond any doubt, to be an EFFECTUAL REMEDY. It is a very agreeable and pleasant medicine, and a trial of its virtues is earnestly recommended to every person who has a cough, or who may be predisposed to Consumption, as a remedy of no ordinary value, with the assurance that, if the directions which accompany it are faithfully adhered to, it will prove to be a SOVEREIGN BALM, restoring the healthy functions to all the organs of the body.

Directions in English, French, and German, accompany each package. Price $1 per bottle.

All orders by mail or express, accompanied by the money, will be promptly attended to.

American Safety Paper

Manufacturing Company of N. Y.

Capital $500,000.

A. NICHOLAS, President. Office, 70 Wall st.

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographs and Anastatic Counterfeits, Erasures, Tinctures or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper, in America, invented and patented in England by Henry Giffard, a celebrated chemist and officer in the British Army, it is hardly necessary to say that the Paper is recommended by Mr. Kent, Assayer, of the U. S. Mint, Mr. Lymon of the New York Bearing House, and Meade Brothers, extensive and skillful photographers, 285 Broadway, N. Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:

Bank Checks—35 cts. per lb.
Bank Bills—$18 for 1000 sheets.
Bills of Exchange—$20 for 1000 sheets.
Promissory Notes—40 cts. per lb.
Sight and Time Drafts—$20 for 1000 sheets.
Insurance Policies—40 cts. per lb.
Railroad Stocks and Bonds—40 cts. per lb.
Bank and State Stocks—40 cts. per lb.
Bonds and Mortgages—40 cts. per lb.
Wills and Deeds—40 cts. per lb.

For wrapping Silks and other fine articles it is excellent, and prevents moths. 40 cts. a lb.

For Indentures and Agreements, 40 cts a lb.

All State and County Records should always be printed or written on this paper, as the chemical is inserted in the pulp not only prevents erasure of transfer, but makes it lasting as time.

For Southern climates it is excellent, and much superior to any other, as the moistness of the climate does not destroy it, the properties inserted in the pulp being preventive. In all the Southern States, Cuba, the West Indies, and the Central American States, the public records can be kept over 20 years, written on the ordinary paper, while the oils and other chemicals inserted in this paper make it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use.

The Company have now in operation Mills in Morris County, N. J., of about 200 horse power, and are able to fill all orders for Paper at the shortest notice.

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No. 70 Wall street, New York.

STATE OF MAINE.

EXECUTIVE DEPARTMENT,
Augusta, Nov. 20, 1857.

An adjourned session of the Executive Council will be held at the Council Chamber in Augusta, on TUESDAY, the twenty-second day of December next. Attest,

ALDEN JACKSON,
Secretary of State.

"NO OBJECTIONABLE FEATURES?" We call the attention of the Union to Gov. Walker's statement that "Some (of the people of Kansas) oppose the Lecompton Constitution because *it distinctly recognizes and adopts the Oxford fraud* in apportioning Legislative members for Johnson County upon the fraudulent and fictitious returns so falsely called from that precinct, which recognition of that fraud in the Constitution is apparent to the moral sense of the people."

He also says, that "in this case, unprecedented and vice regal powers are given to the President of the Convention to make the Precincts—the Judges—and to decide finally upon the returns."

"From the grant of these unusual and enormous powers, and from other reasons connected with the returns of Oxford and McGee, an overwhelming majority of the people of Kansas have no faith in the validity of these returns, and therefore will not vote."

Again, Gov. Walker says that "Some *who are opposed to paper money*, oppose the Constitution because it authorizes a bank of enormous capital for Kansas, nearly unlimited in its uses, and in the denomination of its notes, from one dollar up and down; some because of what they consider a Know Nothing clause, by requiring that the Governor shall have been twenty years a citizen of the United States."

As the Union will not probably publish Gov. Walker's letter, we suggest that its subscribers would at least be interested in knowing that the above-named "features" exist in the Lecompton Constitution. They could then judge for themselves whether the instrument is quite as "unobjectionable" as the Union has declared.

A Striking Contrast.

Never was there a more sudden or a more radical and complete change of doctrine than that exhibited by the democratic party at the present time upon the question of slavery in the Territories. The contrast is very strikingly exhibited by the following extracts which a contemporary has placed in juxtaposition.—

What has been repeatedly said by the party leaders within a few years is now utterly denied by them.

President Buchanan, in his letter to Professor Sillim an, dated August 15th, 1857, says of slavery extension and prohibition:

"*Slavery existed at that period*, (the time when the act organizing the Territory was passed,) *and still exists in Kansas under the Constitution of the United States. This point has been finally decided* by the highest tribunal known to our laws. *How it could ever have been seriously doubted is a mystery.*

"If a confederation of sovereign States acquire a new Territory at the expense of their common blood and treasure, surely *the act of partners have no right to exclude the other from* its enjoyments, by *prohibiting* them from taking into it what society *is recognized as property by a common Constitution.*"

Now read the doctrine advanced by General Cass, and supported by the whole Democratic party of the North, President Buchanan included, during the Presidential contest of last year: [*Ken. Jour.*

"Slavery is the creature of local law, and can claim neither *protection, existence, nor recognition*, in the Constitution. Slavery *does not* and *cannot* exist in Kansas while it remains a Territory. The Constitution neither *protects* nor *recognizes* Slavery in the Territories."

Which is *the Democratic doctrine?*

A RIVAL FOR THE VICTORIA BRIDGE. A grand international bridge is projected, to connect the United States and Canada, across the Niagara river, at Buffalo. The length would be 3640 feet, including, however viaduct approaches of 1690 feet on the Canada shore and 900 on the American. A tubular bridge of iron is proposed, similar to the Victoria—and plans have been submitted by Alex. M. Ross the engineer of the Victoria. The plans are for a railroad bridge with a road-way for ordinary travel above. The cost is estimated at $2,500,000. English capitalists offer to build the bridge—but there is a small difficulty in the way, which is that they require a guarantee from somebody who is responsible, at 6 per cent interest for fifteen years—To pay this, the earnings of the bridge must be $150,000 per annum, over and above the cost of management, repairs, &c., &c.

THE SECTIONAL CAST OF THE CONGRESSIONAL COMMITTEES affords another instance of the intolerant despotism of the South. By the last census the white population of the free States is 13,264,784, while that of the slave States is only 6,408,464; and the disparity is even greater now. Yet with this free State majority of two to one, only nine chairmanships are assigned to the free States, and fifteen to the slave States, in the House; and in the Senate, but six to the free States, and eleven to the slave States! This flagrant injustice was sanctioned in the Senate by a vote of 34 to 19.

Letter from Minnesota.

The villainous democratic frauds in the Minnesota election have been denied by our hunker friends, and declared to be the mere inventions of black Republican papers. We therefore present some evidence of a private nature which we have recently received—being a letter from a gentleman every way worthy of belief, now residing in St. Paul; but formerly of Eastern Maine. His statements coincide with others.

ST. PAUL, M. T., Nov. 30.

It has now come to light that democratic frauds have been perpetrated which only find a parallel in the late Kansas election.

Up in the northern part of the Territory is Pembina county, which, at the election of delegates to the Constitutional Convention did not poll two hundred votes, and odd hundred and fifty of those were known to be illegal, and so acknowledged (privately, of course) by many of the democrats themselves, because it was well known that there were not twenty white civilized persons, of whatever age or sex, that were residents in that County.

But one morning the startling intelligence was announced, through the columns of the Pioneer & Democrat, the democratic organ of the Territory, that they had just received information that Pembina had given eight hundred majority for Sibley! Of course this report was discredited by all honest and well informed men of both parties. The next morning, however, to back up its statements, the Pioneer published a table of returns, purporting to be from Pembina, Todd, and certain other Counties, footing up a majority in these counties alone of over a thousand majority for Sibley! This threw Ramsey behind some three or four hundred votes.

But it has been ascertained that, by a preconcerted plan, the Pioneer office had printed blank poll books, which, as soon as they ascertained how many votes were necessary to elect their candidates, they sent up with orders that they be filled out with the requisite number of votes, and sent down to St. Paul, as the *legal* returns from those Counties.

These statements are the truth; and your readers can rely upon them as the facts in the case. They were the attempts of the so-called "Democratic" party to swindle Mr. Ramsey out of his seat, after being elected by a handsome majority of the *legal* votes of the people of Minnesota. But little good will it do them. There are determined, indomitable Republicans upon the track of the forgers, and your readers may rest assured that they will leave no stone unturned, no means untried, until they have exposed this daring villainy, righted this foul wrong, and placed ALEXANDER RAMSEY in the Gubernatorial chair, where he rightfully belongs!

Yours, B.

FROM UTAH. Mr. Joseph Major, a French trader on Green river, arrived at Kansas city, Missouri, on the 4th inst. He reports that no "Gentile" is any longer safe in the valley, and that nearly all the emigrant trains are suffering from Mormon depredations—their wagons being burned and cattle stolen.

He says the army has plenty of provisions for the winter, if they can only concentrate a sufficient force to protect them from the Mormons; but scattered as they are on the route, he fears many will be cut off.

Mr. P. Rohm, of the Eagle Foundry, in Richmond, Va., has concluded a contract with the agents of the Brazilian government for building nine steam engines, varying from thirty to thirty-four horse power, and the necessary machinery for tunnelling a mountain along the line of a railroad now being built.

An old woman, residing in Dorchester, who for months past has been a recipient of the bounties of the charitable, and who always professed the utmost destitution, died a few weeks since, and upon examining the few effects which she left in her room, nearly $1500 was discovered, tied up in rags and concealed in a trunk.

ALARMING EPIDEMIC IN THE SCHOOLS OF CINCINNATI.—Thirteen of the young lady teachers in the schools of Cincinnati, as appears from the report of a very special committee appointed to examine minutely into the mysteries of the interesting subject, have lately resigned in consequence of approaching matrimonial alliances.

Senator Tazewell, of Virginia, now an old and infirm man of 80, is so wealthy, that it is said he once forgot for twenty years, that he had $40,000 on deposit in a certain bank.

SPORTING ON A GRAND SCALE. A correspondent of the New York Herald gives the following account of the sporting outfit and achievements of Sir F. George Gore, Baronet, who has spent the last three years in the Far West, and whose hunting achievements in the Rocky Mountains have been on a gigantic scale, probably exceeding anything of the kind heretofore attempted on this side of the Atlantic:

Everything that a sportsman could possibly require in the way of shooting, fishing, eating and drinking, was provided in the greatest profusion, and all transported safely to the theatre of his exploits. Some faint idea may be formed of the magnitude of his equipment, when I tell you that his extensive retinue contained a secretary, assistant secretary, clerk, guide, fly-maker, hunters, cook, &c., &c., in all numbering about fifty men, with thirty wagons, numerous saddle horses, dogs, &c., to correspond. Sir George remained nearly three years in this country, and, with the exception of one winter, which he spent near Fort Laramie, was entirely secluded from the world, intensely engaged in his favorite sport of hunting. An accurate account of the game "bagged" was kept by his clerk, and during one season the results were as follows: 122 grizzly bears, 2,500 buffaloes, besides numerous elks, black-tailed deer, and antelope—in all amounting to the enormous aggregate of 3,600 animals, none of which were smaller than the antelope.

Hiram Woodruff, the celebrated jockey, is alarmingly ill, and serious fears are entertained that he will not recover.

It is now believed to be true that Mr. Samuel Lawrence has left the country, and embarked for Europe.

LOCAL AND MAINE NEWS.

The Fourth Lecture in the Mechanic Association Course, is to be delivered this evening, (Tuesday) by Rev. HENRY GILES of Bucksport. The subject of the lecture will be "Charlotte Bronte, or the Bronte Family," made celebrated by the authorship of those remarkable works, "Jane Eyre," "Villette," &c.,—the former of which has been pronounced the best novel in the English language. This lecture by Mr. Giles is one which has elicited high commendation in literary circles.

PERSONAL.—The numerous friends and patients of Dr. WOLTON, will be gratified to learn that he is now rapidly recovering from his recent serious illness, and that he will probably be out in a few days.

FAIR AT OLDTOWN.—The ladies of St James Parish, Oldtown, will hold a fair this (Tuesday) evening, at Codman's Hall. Refreshments will be provided, and a pleasant time may be relied on. Admission only 12½ cents.

An extra train of cars will leave the depot of B. O. & M. railroad at 6½ o'clock this evening, to accommodate persons wishing to attend the Fair. This cars will return immediately after the close. Fare 60 cents.

CHRISTMAS BALL AT ORONO.—Excellent arrangements are making for a brilliant Assembly at the Donnagannah Hall in Orono, on Christmas (Friday) evening. It will probably be one of the pleasantest social gatherings which has ever occurred at that well known and popular house. The assemblies there have usually been attended by many of our Bangor people.

PORK RAISED IN ORONO 1857.—A correspondent at Orono sends us the following:

Phineas Vinal,	1 Pig	—	" 8	" 340

Five hogs raised by Hiram Joy in 6 successive years, the average weight was 530 lbs. the average age was 16 months and 10 days.

ACCIDENT.—Mr. Solomon Bates, of Norridgewock, an old gentleman of ninety-three years, fell one day last week and broke his thigh. We understand that his son, Dr. Jas. Bates of Kendall's Mills, who was called, thinks it very doubtful if his father survives his injuries.

The cotton mill in Brunswick was sold at auction, on Tuesday the 15th, and the company purchasing intend to set the mill running on or about the first of January. This, says the Telegraph, will be good news to the operatives, and to the citizens generally—for when the mill is running and disbursing funds a sensible effect is produced upon the community.

DEBATING SOCIETY IN BRUNSWICK.—The young men of Brewer met at the town hall on Friday evening last, and organized a debating society to be called the "Philomathic." The following are the officers that were elected: E. H. Burr Esq. President, J. W. Hutchings Vice President, D. B. Knight, Secretary, and Charles Batchelder, Treasurer. The first regular meeting will be held at the above hall on Monday evening next, when will be discussed the question whether "Aman is justifiable in obeying a law of his country which he feels to be morally wrong." Jasper Hutchings and ——— affirmative. M. Hardy and C. B. Knight negative.

A FAMILY POISONED BY FISH.—The Brunswick Telegraph says that on Sunday, the 13th inst., all the members of the family of Mr. Harvey McManus, of that town, who ate the usual quantity of dinner, which was of minced fish, were poisoned, one of the children aged five or six years, so badly that it died on Monday night, and one of the elder children remained in a very precarious condition. Mr. McManus was quite badly poisoned, but Mrs. McManus was not much affected, as she ate very sparingly of the dinner. The salt fish was purchased only the evening previous, at a store in the village. The poison is attributed to the fish, but how that came to be affected with the poison is totally unexplained, probably it was affected either in storage or in some of the numerous transportations which it has undergone.

REV. LEONARD WOODS.—We understand that President Woods has been invited to deliver the address before the Rhetorical Society of the Bangor Theological Seminary, at the next anniversary, and has accepted the invitation.—*Union.*

Since the Kennebec opened last spring, down to its close on the 5th inst, the draw in the Gardiner bridge has been opened nearly 1,200 times for the passing through of navigation. On one day it was opened 15 times.—*Rural.*

TEMPERANCE.—The citizens of Skowhegan have commenced a tetotal movement, as we learn by the Clarion, and a committee to visit rumsellers, reported at a recent meeting that every retailer in that place had agreed to abandon the traffic.

FATAL ACCIDENT IN STROUDWATER.—Mr. Jonas Bond, a citizen of Stroudwater, was accidentally drowned at that place on Thursday evening about 5 o'clock. He was on his return from Portland, and it is supposed attempted to cross the river upon the ice, instead of the bridge, and falling through was drowned.—*Advertiser.*

The Argus says that Miss Griffin who recently eloped from Portland, in addition to a large amount of money, took city scrip to the amount of five hundred dollars, four gold watches, with chains to match, and notes belonging to her husband, which he had endorsed, to a large amount. Mr. Graham allowed her to keep the money and city scrip amounting to about $1200, and two of the watches likewise. All he wanted was the notes she had taken, which she gave up. The parties—Carroll and Mrs. Graham—are supposed to be living together somewhere. Mr. Graham has exhibited to us the letters written by Carroll to Mrs. G. They are about as foolish and silly as those which passed between Mrs. Woodman and Furniss on a late occasion in New York.

The spunky girls of Brunswick, not to be outdone, one evening last week, purchased a barrel of flour on their own account, and hauled it with their own hands to the house of Rev. Mr. Morse the Methodist minister.

The Thomaston Journal says that T. W. Claybourn Esq., Sheriff of Lincoln County, intends removing to Rockland.

ANOTHER YARN SPUN.—The Gardiner Journal denies in toto, the story going about a miser's house being burned in that city, and a milk-pan full of gold and silver being found in the ruins. Nobody knows who started it.

TWO OF THE VETERANS GONE.—Sylvanus Howes, born in Dennis, July 4, 1768, died in Frankfort, Me., March 12, 1857, in his 89th year; and his wife, Sarah Lincoln, born in Dennis, died at Frankfort, in October 1857, in her 87th year. They were married June 3, 1790, and lived in marriage nearly seventy eight years! He helped to fortify Dorchester Heights.

James Goff, one of the volunteers who served their country actively through the whole revolutionary war, died in Sangerville, Me., on the 11th inst., aged 98 years. He has many descendants, highly respectable, living in various parts of Maine.

POTATOES SAVED BY LIME.—Mr. William Nason of this city, informs us that he preserved his potatoes from rotting this season by sprinkling air-slaked lime upon them as he packed them in casks. When the potatoes were first dug it was found that they had commenced rotting badly; and they were continually decaying after they were harvested, until the lime experiment was tried, which resulted in arresting the disease, where it had partially destroyed the tubers, and preventing the extension among the sound ones. Lime is used in a proportion of about two quarts to six bushels of potatoes.—*Hallowell Gaz.*

INSTALLATION.—Rev. Horatio Q. Butterfield, late of St. Stevens, N. B., has received and accepted the unanimous call of the South Congregational church and Society in this city. The services of Installation will take place at the South Meeting-house on Wednesday evening next, at half past six o'clock.—*Hallowell Gazette.*

We noticed yesterday a branch of lilac with the buds nearly ready to open. We have heard it remarked that the cherry trees are in a similar state of unseasonable forwardness.—*Bath Tribune.*

INTERESTING LAW SUIT.—A suit has been recently decided in the Tribunal of Commerce of Valparaiso which from its nature must be of importance as well as interest to shippers, brokers, consignees and supercargoes or agents, as having *legally established* certain principles in which many may have been heretofore in doubt. The case referred to is, that of the American ship Delithaven, captain Cooper, which arrived in January last, with a cargo of lumber, consigned to captain Edward Smith as agent, sent out by the owners with full authority to act for them, having, in his possession charter-party, lading bills and invoice of the cargo. We give the case here as reported:

"In the law suit instituted by Messrs. Loring & Co., against Mr. Edward Smith on recovery of money, the following decision has been pronounced:

VALPARAISO, Oct. 2, 1857. Considering that the firm of Loring & Co., claims the sum of $684,26 and interest, for charges of commission for the sale of a cargo of lumber consigned by the latter to the former, which sale was not effected by said firm, but by the same Smith, and at a lesser price than the one he had fixed to his consignee. That the defendant refuses to pay, alleging that Loring & Co., were not the only persons charged with the sale, but that there were also several others; it being understood that he who effected the sale should receive the rate of commission; that as the plaintiffs did not effect it, but the firm of Loring Brothers, nothing is owed to them. According to evidence tendered by both parties, and the defendant having proved that he had commissioned for said sale not only the plaintiffs, but also several other persons, for which reason it cannot be supposed that he was guilty of the bad intention of making them take unnecessary steps. Also considering that a consignee can only remove rates of commission when he has realized the operation, which did not happen in the present case; Mr. Edward Smith is declared absolved from all charge.

A WHOLE-SOULED IRISHMAN. In the rough scramble for office at Washington, the following incident is refreshing:

The Chairman of one of the Committees brought a stalwart young Irishman to the Capital, to introduce him to his new station of Assistant Door-tender, and its former occupant, whom he requested to explain to him his duties. The new comer looked at the man he was about to displace, and discovered that he was a cripple. On asking him how he had become thus mutilated, he was told that he had been shot and cut "to pieces" in the battle of Buena Vista, left for dead on the field, and only recovered to find himself mutilated for life. The generous hearted fellow looked first at one and then the other, and finally blurted out, as he turned on his wheel:—"If this man's place is the only one you have got for me, I'll not have it at all."

MAN BURIED WITH A BELT FULL OF GOLD AROUND HIM. About a month ago the body of Nicholas Wettnir of Mascoutha, St. Clair Co., Illinois, was found in the water near Jersey City, and was interred at Bergen. Justice Bedford addressed a letter to Mascoutha relating the occurrence, and a day or two since the widow of deceased made her appearance in Jersey City, and stated that her husband had a considerable amount of gold with him, which he carried in a belt about his waist. Justice Bedford engaged an undertaker to examine the remains, and the result was the finding of a belt about the body, containing $1600 in gold.

Daniel Webster penned the following beautiful sentiment:

"If we work upon marble, it will perish; if we work upon brass, time will efface it; if we roar temples, they will crumble into dust; but if we work upon our immortal minds—if we imbue them with principles, with the fear of God—and of their fellow men, we engrave on those tablets something which will brighten to all eternity."

COPY-BOOK MAXIMS (For Little Children of a Larger growth).—Too much vinegar spoils the salad.——Gutta percha is good for the sole.——Ceremonies like flags are best waived.——Prejudices and frogs croak loudest in the dark.——With men, as with monuments, position is everything.——The busy tongue, sooner than not talk, scandalizes.——An English wife and a French cook,—if a man's home is not happy with those blessings, it is his own fault.—*Punch.*

For more than two years Mr. Geo. D. Prentiss, the editor of the Louisville Journal, has written his editorials by amanuensis, his hands being paralyzed to such a degree that he cannot use them.

A party of surveyors came into Sacramento, Cal., a few days since, with their pockets full of scalps. They explained the presence of these sanguinary trophies by saying that they "had some difficulty with the Indians."

TELEGRAPHIC

TO THE DAILY WHIG AND COURIER

FOUR DAYS

LATER FROM EUROPE.

ARRIVAL OF THE

ADRIATIC,

AT NEW YORK.

New York, Dec. 21.

The steamship Adriatic from Liverpool the 9th, arrived this morning.

India.

Calcutta dates are to Nov. 1st.

Two convoys of provisions had arrived at Lucknow, where there had been some severe fighting, and Gen. Outram is reported wounded.

Sir Colin Campbell had started for Cawnpore. Troops were also moving for there with all possible despatch, and were to relieve Lucknow as soon as in sufficient force.

More troops had arrived out.

Advices from England and the continent are unimportant. Financial failures continued, but it was thought the worst is over.

Both Houses of Parliament had voted unanimously a pension of £1000 a year to Gen. Havelock.

The Bank of England indemnity bill had been ordered to a third reading in the House of Commons.

Parliament would probably be adjourned in a few days to the usual time of meeting.

Sir Gaspard Le Marchant, Governor of Nova Scotia has been appointed Governor of Malta. Lord Mulgrave succeeds Marchant.

The Leviathan is making progress daily to deep water.

The French Corps Legislatif had adjourned to Jan. 18th.

Malta and Corfu had been successfully connected by submarine telegraph.

The Spanish-American difficulties are assuming a more pacific aspect.

Liverpool Markets.

Liverpool Breadstuff market, Dec. 9th.—Richardson, Spence & Co. report flour dull and neglected, at 6d a 1s decline per bbl.—West'n Canal 23s a 24s 6d; Philadelphia and Baltimore 25s; Ohio 26s. Wheat in very limited demand, the turn generally in favor of buyers. Corn dull at previous quotations—mixed and yellow 34s a 34s 6d; white 37s 6d a 38s.

Other markets generally dull and unchanged.

SECOND DESPATCH. Another reduction of one per cent in the rate of discount of the Bank of France had taken place. The rates now stand at 6, 7, and 8 per cent for bills having respectively not more than 30 60 and 90 days to run.

It is asserted that France intends strictly to avoid any interference in the Holstein dispute, which she is willing to consider as merely federal, and confined to Germany, if the Germans themselves greet it in that way.

The swearing in of the new members of the Legislative body having been completed, the Chambers were prorogued till January 13th.

The Imperial Exequator has been granted to Mr. Spencer as U. S. Consul at Paris.

There was some talk of bringing forward Mr. Poyet, the editor of the suspended paper "Presse," as one of the candidates to represent Paris in the Corps Legislatif.

A despatch from Paris of the 8th inst. states that the position of the Bank of France continued to improve. During the last three days the reserve had reached the amount of 230,000,000 of francs. The funds closed at 69f 10c for account.

The Moniteur of Dec. 8th announces that the Commissions of the Four Powers signed, on the 5th inst., at Constantinople, the final act of the ratification of the Russian frontier in Asia.

Spain.

The Paris correspondent of the London morning Post says that the difficulties between Spain and Mexico were again assuming a more pacific aspect. And the Paris correspondent of the Times says the: Lord Howden would leave that city on the 10th for Madrid, with hopes of bringing the Mexican question to a point of negotiation, if not to an issue of peace. The same letter says that the anticipation respecting the approaching dissolution of the Spanish Cortes seem likely to be fulfilled.

Australia.

The Australian mails with Melbourne advices to 10th of Oct., had reached England, but there was no additional news of interest. The intelligence from the various gold fields was generally of a favorable character, and the supply of the precious metals at the ports was kept up.

SECOND DESPATCH.

CONGRESSIONAL.

WASHINGTON, Dec. 21.

SENATE. Mr Wright introduced a bill to continue the improvements of the harbor of Newark, N. J. The bill was referred to the committee on commerce.

Mr Rigg submitted a joint resolution, which was adopted by a vote of 34 against 12, providing that when the two Houses adjourn on Wednesday next, the adjournment continue till the 5th of January.

Mr Wilson introduced a bill granting a million acres of land for the benefit of public schools in the District of Columbia.

Mr Bigler made a long speech in vindication of the President's policy in the Kansas portion of his message. In his opinion the speech of the Senator from Illinois was, after all a huge structure resting on a very unsound foundation. He could not understand why the Senator should have shown so much willingness to weaken public confidence in the policy of the men of his own party whom he assisted to place in power. He could discover no purpose of public policy, the attainment of which induced the Senator to do those things, nor to deal in an ingenuous manner with the President. The allegation that the venerable statesman had fallen into fundamental error as to the meaning of the Kansas and Nebraska bill because he was out of the country at the time of its passage, was not worthy the Senator. What did the Senator mean by assuming that the Kansas policy of the message was not an administration measure. Did he mean that the Cabinet did not agree with the President. (Mr Bigler) understood it certainly. Or did he mean that the administration, having laid down its Kansas policy, will not hold that those who assail and denounce that policy do not oppose the administration. There was certainly no reason for misunderstanding on that point. If he meant that he does not say clearly want that policy is, Mr Bigler could tell him, and on this occasion he need not doubt the accuracy of the explanation. The administration have from the beginning maintained the territorial laws of Kansas, having sanctioned the authority of the territorial legislature to call a convention of delegates to be elected by the people to make a constitution, and having exercised all its powers to secure to the people a fair opportunity to make their domestic institutions in their own way—the people of Kansas had a right to do this in their own way. The way it has been done in their own way; but if in this or any other particular the delegates have acted in bad faith, or have abused the power delegated to them, they are responsible to the people, not to Congress nor to the administration.

Mr. Bigler said he had before him the bill reported on the 7th of March, 1858, providing for the admission of Kansas into the Union as a State, the third section of which reads as follows: "That the foregoing propositions be and the same are hereby offered to the said Convention of the people of Kansas when formed for their acceptance or rejection, which, if adopted by the Convention, and ratified by the people at the election for the adoption of the Constitution, shall be obligatory upon the United States and the said State of Kansas." The Senator assumed the other day that whenever the law is silent on the subject the inference is in favor of submission, but a full explanation of the precedents bearing on that point had shown him that the converse of the proposition had the weight of authority, and that which he had laid down as the rule or precedent has never happened in any single instance.

Mr. Bigler proceeded to reply to other points in Mr. Douglas' speech—a very large and dangerous power was in the hands of those who are to conduct the election, on the slavery article they may abuse it, if so the result could not be recognized; but if the election shall be fairly conducted he should vote for the admission of Kansas as a State, either with a free or slave constitution because he thought that would settle the controversies and give peace to Kansas and the country, and if the institutions should not suit the people they could be altered more easily and satisfactorily with Kansas as a State than as a territory.

Mr. Douglas replied, saying he had no fault to find with the Senator from Pennsylvania, for making a series of attacks on his consistency while omitting to answer his arguments. Some persons had presented him with the records of the votes of Senators on the Wilmot Proviso and some former speeches relative to Kansas matters.

HOUSE.—The House resumed the consideration of the treasury note bill.

Mr. Abbott was altogether opposed to the bill because it was not necessary at the present time, he was not in favor of creating the general government into a great national bank for the purpose of speculating in money to the extent of $20,000,000. He would protect the national honor, but in the way least injurious to the people. Such an issue as proposed would prolong and agravate the commercial embarrassment and as a measure of relief he suggested the curtailing of all unnecessary expenses and the abolition of sinecures, the treasury would thus be relieved to the extent of more than $20,000,000.

A lengthy debate ensued in which Messrs. Letcher, Banks, Lovejoy, Campbell, Quitman and Boyce participated; the two latter avowed themselves in favor of direct taxation and free trade.

Mr Campbell would support the bill with modifications; he wished to offer an amendment to the bill imposing increased duties on carpets, iron, the various kinds of manufactured cottons, linens, silks, worsted, wools, etc. His object was to meet the treasury notes and provide incidental protection to the industrial pursuits of the country.

The Committee rose and the Senate Treasury bill was referred to the Committee on Ways and Means.

A resolution was passed limiting the debate on the subject to two hours to-morrow.

Mr Warren asked but did not obtain leave to introduce a preamble, that whereas it appeared from the proclamation of Brigham Young, late Governor of Utah, and from the Presidents message that said territory is now in open rebellion against the government of the United States, therefore resolved that the Committee of Territories be instructed to consider and report on the facts, and enquire into the propriety of excluding from the floor of the House the delegate from that Territory.

The House then adjourned.

OPINIONS OF THE PRESS.

We take pleasure in referring to the virtues of Davis' Pain Killer. We have used the article and found it valuable. The sale of this article in the United States is beyond all precedent, as the books of the office will show.—[Universal Commercial.

Davis' Vegetable Pain Killer.—We first heard of this medicine during a visit to the New England States, and being struck with the novelty of the title, were induced to make some inquiry about it; and we were surprised to learn that it was kept constantly in the houses of most of the inhabitants of the cities and villages where we stopped, to be used in cases of sudden attacks of pain, burns, scalds, &c., and we heard it spoken of in terms of high commendation, both by druggists and physicians.—Ferry Davis' Pain Killer. It is a real pleasure to us to speak favorably of this article, known almost universally, to be a good and safe remedy for burns and other pains of the body. It is valuable not only for colds in the winter, but for various summer complaints, and should be in every family. The casualty which demands it may come unawares.—[Christian Advocate.

Valuable Medicine.—The sale of that remarkable and truly valuable preparation, Ferry Davis' Pain Killer, is constantly and rapidly increasing. During the past year the demand for this great remedy has been altogether unprecedented. Scarcely a week passes by during which we do not hear of some remarkable cure having been performed, within the circle of our acquaintance, by the use of "Ferry Davis' Pain Killer."—[Prov. Advertiser.

Wistar's Balsam of Wild Cherry.

(From the editor of the Baltimore Patriot.)

BALTIMORE, Feb. 18.

Dr. Seth W. Fowle, Boston, Mass. Dear Sir—I feel it to be a duty to you to say that a young lady, a member of my family, had been suffering for several years under a bronchial affection, and the disease had made such progress notwithstanding the best medical aid had been consulted, that great fears were entertained that the disease, with her as with so many others, might speedily terminate in death. I was induced, through the persuasion of a friend, to try your DR. WISTAR'S BALSAM OF WILD CHERRY, and after she had taken three bottles, she felt entirely relieved of the attack.

Very respectfully yours,

J. F. MUILTON.

WORLD'S BLESSING!

RHEUMATIC, NEURALGIC & SPINAL BALM.—*A Miracle of the Nineteenth Century.*—A son of Mr. L. Colcroth has been suffering the last two or three weeks with a severe case of Rheumatism—so much so that he was prostrated, and was unable to move himself in bed; and, his friends considered him dangerously sick. Dr. J. B. N. Gould, of Boston, who has discovered a remedy for Rheumatism, Neuralgia, and Spinal Disease, arrived in town on Saturday, and has taken rooms at the Elm House. The Doctor was called on to treat his case, and in one hour from the time he applied his Rheumatic Balm he was able to leave his bed and walk his room, and is now free from rheumatism. This is, indeed, a wonderful discovery. [From the Eastern Argus, Nov. 24th.

FLOUR,

Wheat Meal & Shorts.

The subscriber has commenced manufacturing FLOUR from one of the best Wheat growing sections of the West. His purchases of wheat are made by agents going among the farmers and selecting the choicest parcels of *White Winter Wheat*, for which an extra price is paid, rejecting all other kinds and all ordinary qualities. Attached to his Mill are all the latest improvements. The Wheat is thoroughly cleansed before grinding, and the Flour is double cooled before packing. The whole contents of the Wheat are transported to Bangor by Railroad, in Flour of four different qualities, in unbolted wheat meal, and in shorts. A car load, 100 bbls, will arrive weekly, so that customers can be supplied at a 1 times with Flour and Meal, fresh ground within ten days. The meal is in bags, consequently not injured by packing 196 lbs. in a barrel as is the usual practice. This Flour and Meal will be found to have the fresh flavor of pure new Wheat, not having been heated in large piles or for weeks, as is the case with nearly all the wheat manufactured in the large establishments for the large markets.

Dealers can be accommodated with a weekly supply on favorable terms, upon application to the subscriber, Office No. 27 West Market Place.

Samples may be seen at the stores of JOHN McLAUGHLIN, No. 40, West Market Place, O. D. HOLT & SON, Broad street, HELLER & BOARMAN, Hammond-st. GOODWIN & WEBSTER, head of Exchange Street, GEORGE L. CHURCHILL, State st. ABEY & HOXIE, Brewer, where it is kept for sale,

California Steamers,

Carrying the United States Mail.

5th and 20th of each month.

Through Tickets, including transit of the Isthmus, via. Panama R. R.

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers, *without any extra expense.* This is the only line giving entire Through Tickets, including meals, on the Isthmus.

Transit made in *four hours, entirely by daylight,* thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of dangerous lake and river navigation over rocks and shoals.

Arrangements have now been completed so that the new or U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a *sure* and *short* passage without any detention on the Isthmus.

Tickets must be signed by one of the Company's Agents before they will be recognized by the Agent of Panama, and tickets thus signed can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city.

THE LUXURY AND PROFIT OF HONEY MAKING.

Torrey's Bee Hive.

THE subscriber, having purchased the right of making and selling *Davis' Patent Bee Hive* for the Counties of Penobscot, Lincoln and Sagadahoc, which has been received with so much favor, and taken the first premiums wherever exhibited, has introduced an improvement into the Bee Hive, and is now prepared to make the same in connection with the Davis Platform, and to sell rights to Towns and individuals.

This Bee Hive, thus improved, is admitted by persons acquainted with the honey-making business to be superior to every thing yet invented for the purpose. It covers all the requisitions for the profitable maintenance of the apiary, by providing for ventilation at all seasons of the year—room for the carrying and feed of the bees—convenience for the removal of excrement, for the proper separation of the swarms, and generally for the health and comfort of the workers.

The boxes used in this Hive for storing honey, are the best adapted, in the trade, for the market, holding from three to six pounds each.

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee hives and individual rights.

For sale, fifty swarms of Bees, with the new hives.

For hives, individual rights, &c., address

500 Agents Wanted.

A Homestead for $10.

THIRD DIVISION.

$310,000 WORTH OF FARMS & Building Lots, in the Gold Region of Culpeper County, Va., to be divided among 10,000 subscribers, on the 9th of December, 1857. Subscriptions only *ten dollars* down, or fifteen dollars, one half down, the first on the delivery of the deed. Every subscriber will get a building lot or a Farm, ranging in value from $100 to $25,000. These FARMS and LOTS are sold so cheap to induce settlements, a sufficient number being reserved, the increase in the value of which will compensate for the apparent low price now asked. Upwards of 1,500 Lots are already sold, and a company of settlers, called the *Hepphanock Pioneer Association*, is now forming, and will soon commence a settlement. Ample security will be given for the faithful performance of contracts and promises.

Nearly 45,000 acres of land, in different parts of Virginia, now at command, and will be sold to settlers at from $1 up to $500 per acre. *Unquestionable titles will in all cases be given.*

GOOD CUTTERS, COOPERS, FARMERS &c., are wanted; and

500 Agents to obtain subscribers, to whom the most liberal inducements will be given. Some Agents write that they are making $300 per month. For full particulars, subscriptions, agencies, &c., apply to

Premium awarded to T. C. BUTLER, Derby Line, Vt., on MILLER'S CONDITION POWDERS, for Horses & Colts, at the Vermont State Fair, held at Burlington, Vt., Sept. 9, 10, 11 and 12, 1856.

MILLER'S CONDITION POWDERS For Horses & Colts.

PRICE—Twenty-five Cents.

THE changes of weather and season, with the changes of the food, have a very great effect upon the blood and humous fluids of Horses. At these changes they require an assistant of nature to throw off any disorder of the fluids of the body that may have been imbibed, and which, if not attended to, will result in the Yellow Water, Heaves, Colts, &c., all of which will be prevented by giving one, or two of these Powders, Spring or Fall, and will at any time cure where any symptoms of disease appear, if used in time. They purify the blood, remove all inflammatory and fever, loosen the skin, clear the water, and invigorate the whole body, enabling the animal to do more work with the same feed.

The effect of these powders is directly upon the secretive glands, and therefore all diseases arising from or producing a bad state of the blood are speedily cured by them. Also, colds and surfeit of any kind are cured by one or two of these powders, if given according to directions.

In all cases of Horse Distemper, they should be given at the first symptom to prevent fevers, and in the last stage, to carry off all humors of the blood, and to restore a healthy action to the glands of the throat.

We, the subscribers, hereby certify that we have used *Miller's Condition Powders*, for Horses and Colts, prepared by *T. C. Butler*, Druggist, Derby Line, Vt., and think them the best Powders for Horses and Colts that are out of condition, that we have ever used. We would recommend them to Farmers, Stage Companies, Stablemen, and others, dealing in or keeping Horses and Colts.

They will clean the Worms and Botts out of a Horse in Summer, and give him a good appetite for his food, and a good coat.

They are also good for the Heaves, and for a Cough; and they have been highly recommended for the cure of Worms and Bots in Colts.

They clean the water, loosen the skin, and invigorate the whole body, enabling the horse to do more work with the same feed. (signed—)

Timothy Winn—Mr. Butler would say that Mr. Winn is the proprietor of the Canada House and Stage office, on Stanstead Plain, and was for many years proprietor of the Derby Line House, Derby Line, Vt., where he raised the black colt, called the Know Nothing, which was sold at $1800, at four years old.

Erastus Lee—Mr. Lee is one of the most extensive farmers in Eastern Canada, and has raised some very valuable horses, which he has sold at high prices. This year he has raised and sold the bay horse called Charley, which was afterwards sold for $1000 and taken to France. He also raised and sold the horse called Bony, which has been taken to California, and is held at $10,000. Mr. Lee keeps from 40 to 60 horses and colts, and makes great use of Miller's Condition Powders.

TREMONT MILLS.

Teas, Coffees, Chocolates, Cocoans, Spices, &c.

WHOLESALE AND ALSO IN SMALL PACKAGES.

E. E. DYER & CO.,
(Sign of the Chinaman grinding Coffee,)
No. 8 Broad, near State Street, ... Boston.

Supply the best, finest and purest articles, at the *lowest Cash prices.* Their Stock consists of

Teas, Coffees, Chocolates, All spices, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar, Tartaracum or Prepared Dandelion Root, &c.

Having every facility for manufacturing and preparing the several articles named, the public may rely on having them *pure and genuine*, as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO."

To give consumers some idea of our sales, we annex the following scale of prices, viz:

Oolongchong Tea,	1,25	Mocha Coffee,	1,1
Oolong Tea,	1,00	Java Coffee,	1,0
Y. Hyson Tea,	1,00	Good Coffee,	1,00

The Spices are put up in ¼ and ½ lb tin cases, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of consumers and dealers to our *Spanish Coffee*, as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1½ lbs. of any other.

DANDELION COFFEE.—This article is carefully prepared at our mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, or *Prepared Dandelion Root.* This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee,*" may be relied upon as the *genuine article.* The proportion used is about one half the quantity of coffee. The price is 20 cents per pound, and it is warranted to be the same as that which has been sold for fifty cents a pound by druggists.

The medical properties of Dandelion are well known, and hold in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which, being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians, to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections, &c.

Be careful to observe that all our Taraxacum has our trade mark—"Chinaman Grinding Coffee"—as there are many imitations of our article *called* Taraxacum in the market.

To Grocers and Dealers a liberal discount is made, enabling them to supply their customers at the same low rates.

TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the *quality* of our stock, and our prices, as compared with those of any other house.

American & Foreign Patents.

R. H. EDDY,

Solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington, under Act. of 1836.)

76 State Street, opposite Kilby-st.,

BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents executed on liberal terms, and with despatch. Research made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions, unsurpassed, if not immeasurably superior to, by any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and no SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY. He would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber, during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of Patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are obviated by this Agency.

TESTIMONIALS.

Having the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor, for procuring Patents—There were few, if any, persons acting in that capacity, who had so much business before the Patent Office, and there were none who conducted it with more ability and success. I regard Mr. Eddy as one of the best informed and most faithful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and one capable of putting their applications in a form to secure them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

From the present Commissioner.

August 14, 1857—During the time I have held the office of Commissioner of Patents, R. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, as Solicitor. He is thoroughly acquainted with the law and the rules of practice of the office. I regard him among the most capable and successful practitioners with whom I have had official intercourse.

DR. SANFORD'S INVIGORATOR, or Liver Remedy.

THIS is ONE OF THE GREATEST SCIENTIFIC cures ever made, and is not a work of magic, as it does not cure everything, but does more than any other medicine, for Liver Complaint, Indigestion, or a common headache, is often a *Disease of the Liver.*

The Liver is a very obvious organ in the human body, and when in its powers of the system, the stomach is almost or entirely useless. The Liver is the great Purifier of the blood. When the bowels are at fault, and the whole system suffers in consequence of sogginess, it is the duty of the liver to supply the proper quantity of bile, which is the great remedy for which it is liable.

It is proved that this remedy has been troubled with Liver Complaint, has but to try a bottle of this.

A common pill has been and extracting that great active virtues of the medicinal roots, and combining with them the active principle of the bile, and giving it a direct effect upon the stomach, causes healthy bile, giving tone and energy, removing the cause, and effecting a radical cure. Great effects follow the use of this medicine. Bilious attacks are dreadful, Diarrhœa, cholic, &c., are the results of a torpid liver. Take the Invigorator.

For Dyspepsia or Jaundice it is a valuable remedy, and cures in most cases.

For Night Sweats, it is warranted a sure remedy.

For Female Complaints, it is a sure remedy, and it removes the cause.

Costiveness cannot exist where it is freely taken, while Cholic goes.

It must be known that nine-tenths of our ailments are caused by a deranged stomach and liver, and this medicine is the Invigorator of these powers, never failing in the diseases of the Liver, no matter of what kind, or how long standing, or what may be their ill effects. Many testimonials are in the hands of the proprietors, from persons who have tried the medicine, and have found it a sure remedy, and have recommended it to others.

The Invigorator is a vegetable compound, such as any one may safely take, and yet it is so powerful in its effects, that it will cure all manner of bowel long standing complaints. The active medicine in this compound is such as to be a sure remedy, and without injurious effects, and should always be taken to operate on the bowels, to take it with take the pills take some water and wait a little time; in this way the medicine will scarcely be tasted.

FOR November, received by

oct24 CHARLES EGHT.

Dr. Ayer's Pills

Are particularly adapted to derangements of the digestive apparatus, and diseases arising from temporary obstruction of the Bowels. A large proportion of the complaints that afflict mankind originate in some disorder of the Stomach, and consequently these Pills are found to cure many forms of disease.

Subjoined are the statements from some eminent physicians, of their effects in their practice.

AS A FAMILY PHYSIC.

From Dr. B. W. Cartwright, of New Orleans.

"Your Pills are the prince of purgatives. The superior qualities surpass any cathartic we possess. They are not only certain and effectual in their action, but in a degree which makes them invaluable to us in the daily practice of disease."

FOR JAUNDICE AND ALL LIVER COMPLAINTS.

From Dr. Theodore Dwight, of New York City.

"Not only are your Pills admirably adapted to the purpose for which I find them brought into use upon the Liver very, marked indications. They are in my practice proved more efficacious for the cure of persons than any cathartic we now know of. I am thus enabled to speak with confidence of the profession, and the people."

DYSPEPSIA — INDIGESTION.

From Dr. Henry S. Lane, of St. Louis.

"The Pills you sent me kindly cured me of a long and obstinate case of Dyspepsia, and have since proved to be a most truly an extraordinary medicine. So peculiarly and well adapted to the diseases of the human system, that they seem to work upon them almost like magic. I have cured some persons of Dyspepsia and Indigestion with them, which had baffled all other remedies, so well known and universally used. Indeed I have repeatedly found them to be effectual in almost all the ordinary complaints for which you recommend them."

DYSENTERY — DIARRHŒA — RELAX.

From Dr. L. G. Greene, of Cincinnati.

"Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver renders them an excellent remedy, when given in small doses, for chronic dysentery and diarrhœa. Their aperient qualities make them very acceptable and convenient for the use of women and children."

INTERNAL OBSTRUCTION—WORMS—SUPPRESSION.

From Rev. E. Shourt, who practices as a Physician and Minister in Boston.

"I find one or two large doses of your Pills, taken at the proper time, are equal to a month's work of the usual medication, when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients."

CONSTIPATION — COSTIVENESS.

From Dr. A. P. Hughes, Montreal, Canada.

"Too much cannot be said of your Pills for the cure of costiveness. It others of our fraternity have found them as efficacious as I have, they should join me in bearing testimony to it for the benefit of the multitudes who suffer from this complaint, which, although bad enough in itself, is the forerunner of others that are worse. I believe costiveness originates in the liver, but your Pills affect that organ not merely as a cathartic, but they act on it in such a way as to cure the disease."

INFIRMITIES OF THE BLOOD — SCROFULA — ERYSIPELAS — SALT RHEUM — ERUPTIONS — TETTER — TUMORS — RHEUMATISM — GOUT — NEURALGIA.

From Dr. Euclid Hall, Philadelphia.

"You were right, Doctor, in saying that your Pills purify the blood. They do that. I have used them of late very much in my practice, and agree with your statements of their effects. They stimulate the excretories, and carry off the impurities that stagnate in the blood, engendering disease. They stimulate the organs of digestion, and infuse a healthy vigor into the system."

"Such remedies as you prepare are a benefit to mankind, and you deserve great credit for them."

FOR HEADACHE—SICK HEADACHE—FOUL STOMACH—PILES—DROPSY—PLETHORA—PALSIES—FITS—&
